

Dalton

Material The extensive Dalton collection is a combination of real Emperador marble with sleek black painted metal bases. The oval-shaped coffee table and a side table have wooden legs with a gold-plated cap at the bottom.

Marble is a product of nature; please note that patterns in the marble may differ from the image.

Possibilities Dalton consists of the following items: a set of round side tables, a set of round coffee tables, a small round round side table (with wooden legs), an oval-shaped coffee table (with wooden legs), a round swivel coffee table with 2 tops, a sofa table, a large round coffee table, a round dining table, 2 rectangular dining tables (200 and 230cm x 94cm), a set of square pillars and an oval-shaped desk.

Maintenance As for the bases it is sufficient to wipe it with a (slightly damp) cloth. Never use abrasive cleaners as they can leave scratches in the metal.

Remove stains or spilled liquids directly from the table tops; DO NOT rub spilled liquids, but dab it with kitchen paper or an absorbent cloth. DO NOT use silicone-containing furniture care products or a solvent such as stain remover, white spirit, benzene, thinner or similar agents.

Stains can be removed with some water and some natural soap. Do not use detergents with bleach additives (e.g. lemon).

IMPORTANT: marble is porous; it is best to protect it against stains with a layer of the supplied wax. You can also order this wax from us. We also recommend using coasters.

In this way you keep your furniture beautiful and enjoy it for a long time.

Delivery time The delivery time of the Dalton collection is 4 weeks.
